Design-Oriented User Friendly Full stack web Developer

✉ alexgathege@gmail.com 📞 +254705875302 📍 P.O Box 315, 00219 Nairobi

## Education

### Bachelor 's Degree – Applied Computer Science

Jan 2017 – Nov 2021

Daystar University, Nairobi

- Pursued my passion for software development through five advanced electives in software systems, architecture, database management and computer networks.
- Active member of DITA, computer science club, where I harnessed my problems solving skills and ability to handle challenging situation through the vigorous coding bootcamps.
- Attained an overall GPA of 3.23 on a scale of 4.0.

## Employment

### Web Developer

Mar 2022 – Present

Vesen Computing, Nairobi

Currently working as a web developer at vesen computing. The experience has been great as I get to interact with my colleagues as we develop modern web application for business in and outside the continent.

- Have improved on my customer service skills as I interact with clients. Have learned how to handle clients feedback and develop the sites based on their specification.
- Working at Vesen has sharpened my skills to work under pressure to deliver on time, As well as my communication skills as I interact with customers to buy time for a website to be delivered on time.

### Sale personel

Nov 2021 – Mar 2022

Three Rings Hardware, Nairobi

- Worked as a sale personnel at Three Rings general hardware store, where I gained a lot of experience in customer interaction through sale over the counter.
- Enhanced my customer service skill as I made sure customer's orders were delivered on time and where there was delays reasoned with the customer to assure their orders was on transit.
- Got promoted to store manager where I used my computer skills by making sure every record was properly stored in the database.
